I am a Location Sound Recordist with over four years experience in the industry. Having trained on season 6 of The Clinic, I quickly moved on to working on my first series for RTE "Living Lightly" with my own equipment. Since then I have gained extensive experience in all kinds of productions including Reality TV Series, Live Broadcast, Documentary, Short Film, Features, Corporate Videos, Commercials, EPK and Virals. Should the job require multiple radios, booms, audio mixing or recording I have the necessary experience and equipment to get the best sound for your production. I'm willing to work in almost any situation, I pack very light and travel well with all of my gear. I understand the cooperation needed to make the day and I am always willing to work outside of my job description to help the production.

Equipment List
